About HOME MZ

Elevator Advisory & Vertical Mobility Solutions

HOME MZ is a client-focused elevator advisory and coordination gateway. We help investors, developers, villa owners, and project stakeholders make confident vertical mobility decisions aligned with the building's requirements, budget, user experience, and long-term value. Our role is to clarify needs, evaluate suitable solutions, compare available providers, and coordinate with qualified supply and execution partners through a smooth and transparent process.

INDEPENDENT ADVISORY THINKING

Client-focused guidance tailored to the project - not to one sales agenda.

MULTI-BRAND COORDINATION

Access to multiple technologies, suppliers, and execution options.

PROJECT-FOCUSED DECISION SUPPORT

Clear recommendations from early evaluation to practical coordination.

SMART ADVICE
STRONG PARTNERS
SEAMLESS ELEVATION

Why Elevator Advisory Matters

Choosing the right elevator is a strategic building decision - not just a product purchase.

The decision influences safety, experience, energy, maintenance, lifecycle cost, and the long-term value of the property.

01 SAFETY

Protects people, property, and compliance.

02 USER EXPERIENCE

Shapes comfort, accessibility, and perception.

03 LIFECYCLE COST

Influences efficiency and total cost of ownership.

04 BRAND & TECHNOLOGY FIT

Matches the building purpose and future needs.

05 MAINTENANCE CONTINUITY

Protects uptime, serviceability, and peace of mind.

The right elevator is the result of the right questions.

HOME MZ

MEET THE

Advisor

FERAS EL IBRAHIM

Strategic Elevator Advisor &
Business Development Director

Feras El Ibrahim is the advisory face of HOME MZ. He works closely with clients to translate project needs into smart elevator decisions, evaluate suitable solutions, and coordinate between investors and specialized providers. His role is centered on clarity, integrity, practical coordination, and long-term value.

GUIDANCE

We Do Not Push Brands. We Recommend Solutions.

The best elevator is the one that fits the building, the users, the budget, and the long-term operating model.

SAFETY & COMPLIANCE

Applicable standards, emergency systems, accessibility, and operational safety.

PERFORMANCE FIT

Capacity, speed, traffic, comfort, and expected usage.

COMMERCIAL CLARITY

Scope, exclusions, warranty, delivery, and total commitment.

LOCAL SUPPORT

Technical team, response capability, and spare parts availability.

DESIGN INTEGRATION

Cabin language, doors, finishes, shaft, and architectural alignment.

LIFECYCLE VALUE

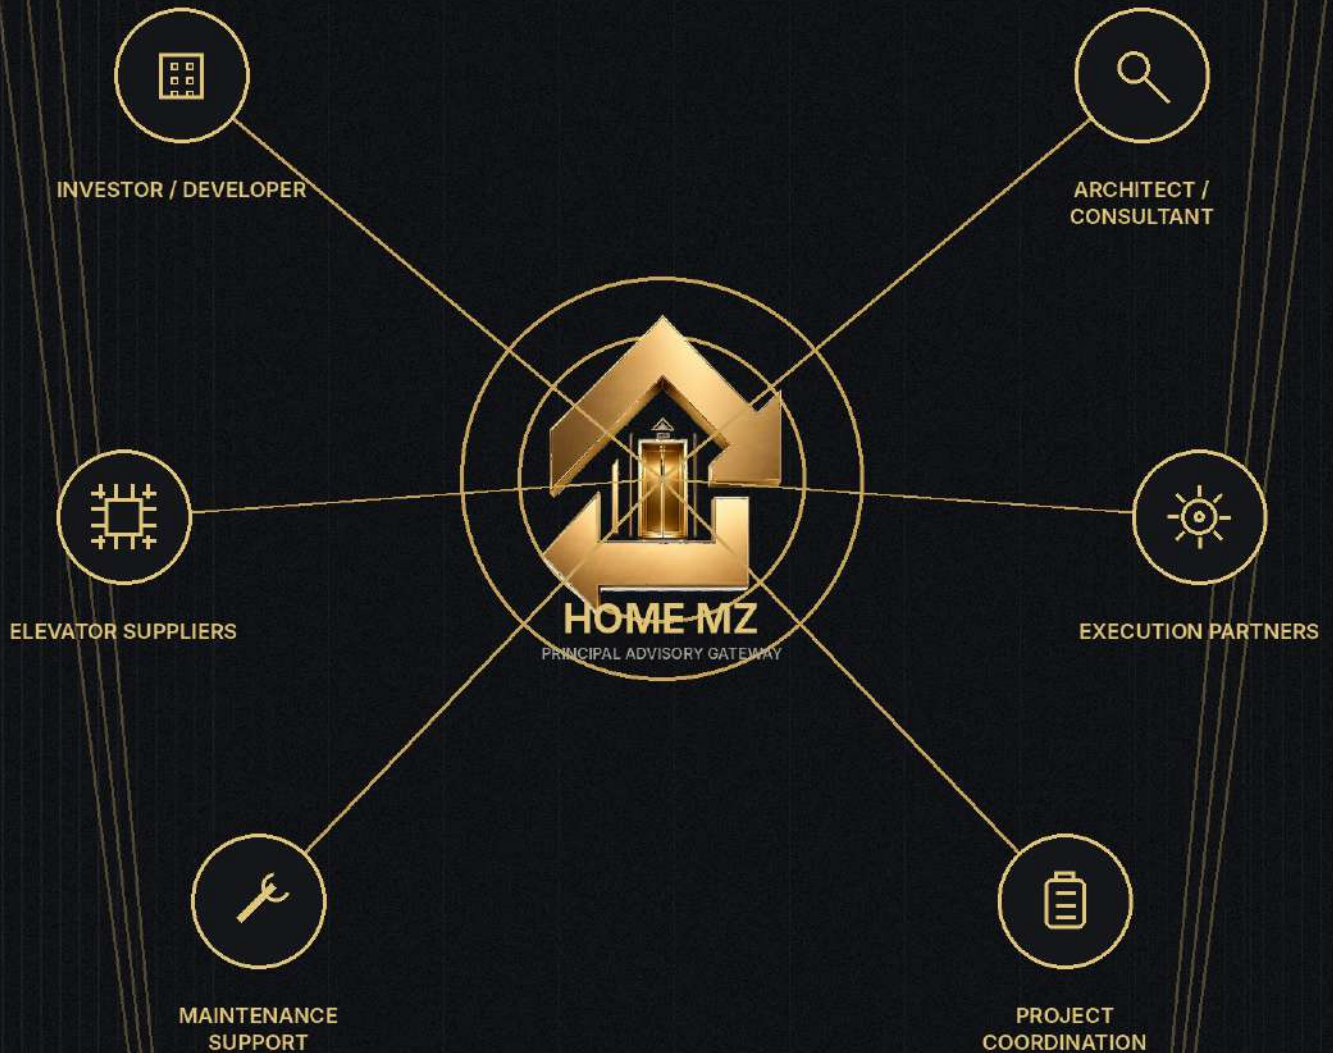

Energy, maintenance, reliability, downtime, and modernization needs.

Independent advice before commercial commitment.

A Connected Ecosystem. One Clear Relationship Point.

HOME MZ coordinates the relationship between the client and the wider project network.

STRATEGIC EXECUTION NETWORK

DELTA
Lifts Technology & Trading

HOME MZ works within a broader execution network that includes Delta Lifts Technology & Trading. The network supports product supply, installation coordination, preventive maintenance, repair, modernization, and replacement parts.

MAINTENANCE COORDINATION

Premium Cabin Design Language

A refined elevator cabin combines architectural lighting, material harmony, reflective metal finishes, and a comfortable passenger experience.

ARCHITECTURAL LIGHTING

Integrated light creates depth, warmth, and a premium atmosphere.

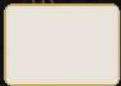

REFLECTIVE METAL FINISHES

Brushed and polished accents add precision and durability.

WARM WOOD & MARBLE HARMONY

Natural textures create a refined and welcoming interior.

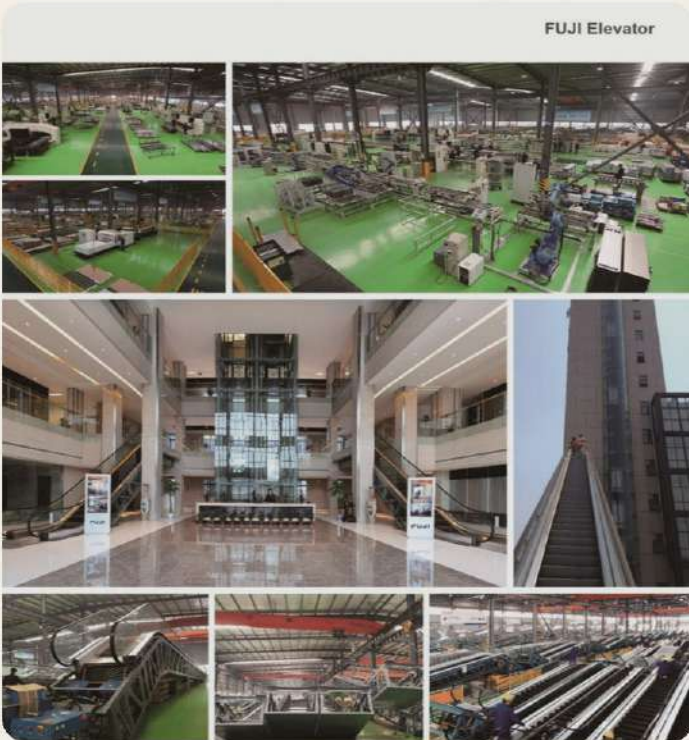

LUXURY PASSENGER EXPERIENCE

Comfort, scale, lighting, and finish quality work as one system.

Protecting Performance Beyond Installation

A strong elevator decision considers the full operating lifecycle - not only the purchase and installation phase.

PREVENTIVE MAINTENANCE

Structured servicing supports safety, efficiency, and equipment life.

REPAIRS & MODERNIZATION

Inspection-led repair and upgrading for existing systems.

REPLACEMENT PARTS

Support for multiple elevator brands and modernization needs.

COMPLIANCE REVIEW

Products and systems are reviewed against applicable project and manufacturer standards.

COMPLIANCE NOTE

Manufacturer and partner certifications are presented only in relation to the systems they cover. They are not represented as certifications issued to HOME MZ.

Selected Reference Project Types
